## "Salt Painting"

You have probably already heard a lot about many techniques of painting such as painting on T-shirts, on canvas, on glass, on foil, on birch bark, painting with the help of glue, foam, monotype etc. But, painting on the salt is a very extraordinary activity that will certainly capture the attention not only of a child, but of an adult as well!

Our instructors will help you to master one of the oldest techniques of the free painting and make one of your fantasies true!

What is this workshop intended for?

- To get acquainted with the material not traditional for painting and unusual drawing technique.
- To develop creative and practical skills through the painting on salt.
- To master such soft skill as watchfulness and interest to the fine arts in general.

Who does this workshop suit best?

The children from 2 up to 4 years old.

What's included in the workshop cost?

- Painting supplies (stretcher, cotton swabs, different brushes, salt, colorings)
- Each kid takes work along with him or her at the end of the master-class.
- Tasty compliment from Mouette
- Surprise gift

## "Cake Painting" by Mouette

Have you ever heard of painting with "magic paints?" "Why are they called magic?" - you'll wonder. The thing is that the base mass for such paints is being made from flour, water and soda and then, after painting you "bake" your drawing in the oven just for five minutes and it becomes twice as big! Sounds captivating, doesn't it? Wanna experience such a way of painting and get a bunch of unforgettable memories?

Come to our author's master class, during which we will teach you how to make and paint real cake pops, various types of ice creams and, of course, our author's Mouette signature cake! Our instructors will be happy to teach you this extraordinary technique!

What is this workshop intended for?

- To get the children acquainted with an extraordinary technique of making volumetric paints
- To help children turn their ideas into reality
- To make an unforgettable gift with his or her hands!

Who does this master-class suit best?

The children from 4 up to 10 years old

What's included in the master-class cost?

- Painting supplies (flour, salt, paint containers, food coloring, brushes)
- Each child picks up his work at the end of the master-class
- Tasty compliment from Mouette
- Surprise gift

## "Sand Art Illustrations"

Children's imaginations are limitless! We are always amazed when children build castles out of kitchen appliances, or when they use the lid of a pot as the steering wheel of their car. In fact, there's a lot to mention! Or take a look at how kids fantasize at our sand drawing workshop. Our experts will teach kids how to draw different shapes in the sand, familiarize them with the process, and pay attention to each child!

This master class is not only an occasion to develop creativity but also art therapy for your children. This kind of drawing is suitable for all children, especially hyperactive ones

### Purposes of the workshop:

- Develop and support children's imagination in the process of cognitive activity and play
- Establish children's ideas about the properties of sand
- Form skills of experimentation with sand

### Who is the workshop suitable for?

For children from 5 to 12 years old

### What's included?

- Equipment (board with backlighting, sand, drawing tools, pebbles)
- Surprise gift
- Tasty compliment from Mouette
